Sample calculation for 73 nominators

An Online Nomination with 73 nominators costs 132.55 EUR.

The price for this ballot is calculated as follows:

1. The number of eligible voters is greater than 50 and less than 100.
2. You start from the base price for 50 eligible voters.
This amounts to 104.95 EUR.
3. The price for each additional eligible voter in this price category is 1.20 EUR.
4. You have 73 eligible voters. You first calculate $73 - 50$.
This results in 23 (additional eligible voters). Now calculate $(23 \times 1.20 \text{ EUR}) + 104.95 \text{ EUR}$ to get the total price of EUR 132.55 for this ballot.
